Sal6n de Gourmets (SG) expands its space

The 31st Sal6n de Gourmets International Fine Food and Beverages Fair, unique in Europe, will be held between 24-27 April, dedicated to top-quality products. The best national and international companies will round off the most-awaited delicatessen display, that will set the trends for food and wine in 2017.

Given the growing demand of interested participants, which compared to the most recent edition has increased by 25% to date, the Organization will expand its exhibition area and will count, for the first time, with a fourth pavilion, taking up pavilions 2, 4, 6 and 8 (plus 4 connection nuclei) of Madrid's IFEMA, with a total surface area equivalent to almost eight soccer fields.

After the success of the last edition, the 30th SG in April 2016, delicatessen products will be present at Madrid's gastronomical peak, an inimitable event for European gourmets.

Astounding success is expected of the 31st edition, with the participation of 1,500 exhibitors, 37,500 products, 1,200 novelties, a business volume of €200 million, awaiting an estimated 85,000 professional visitors.

Estimations:

1,500 exhibitors
37,500 products
1,200 novelties
85,000 visitors
€200 million in business volume
